

My Mom's Immigration Story

By Camila

Hello I am camila. My school is High tech High there are three schools but I go to elementary. I wrote this story because this is a project about immigration. I hope you enjoy it and now here is my mom's immigration story.

The first time I thought of coming to America was when I was 21 and I had my first kid. I wanted to come to America for a better life for my kid. It was long and hot. I walked for hours and hours in the hot sun, but then eventually I arrived.

I lived with my sister and I got a job to clean houses. I saved up all of my money and got a house. And now I am taking english class so I am learning english.

I think all the sacrifice I did was worth it.

What my mom's story showed me was whatever you believe you can achieve so never give up. I hope you loved my mom's story :)
