

Michael Lamarche Immigration Story

By Phoenix Lamarche

My name is Phoenix. I go to High Tech Elementary North County. And my immigration story is about my grandpa's immigration from Canada. Hope you enjoy it.

One day my grandpa's dad got home from work and he said he got a new job In Idaho. It was so exciting for my great grandma and grandpa. My grandpa didn't know it was going on since he was only three at the time. So my grandpa and his dad and mom went to Idaho in a car.

When they got there they had to unpack everything. And then My grandpa went to school and he only knew French so he had to go to English class and it was really hard for him to make friends. Every time he got home from school his parents had to only talk in English or could not talk at all. It was hard for him to learn but he learned English a few years later.

My great-grandma and great-grandpa passed away. After that he got a wife and that's where he is today! I learned about my grandpa when he immigrated! Number one I learned that he drove in a car. Number two I learned he was three. Number three I learned he brought everything with him. Number Four I learned that my grandpa only knew French.
